

Kritika Sharma

AI/ML undergraduate with hands-on experience in multimodal AI systems, NLP pipelines, and ML deployment using FastAPI and Docker. Skilled in building end-to-end intelligent applications using transformers, TensorFlow, and PyTorch with strong problem-solving and communication abilities.

SKILLS

- Languages:** Python, C++, Java, C, JavaScript
- AI/ML:** PyTorch, TensorFlow, Scikit-learn, Keras, Transformers, LLM APIs
- MLOps & Deployment:** Docker, FastAPI, REST APIs
- Data Tools:** NumPy, Pandas, MySQL
- Web & Tools:** HTML/CSS, Git, Postman, Thunder Client

PROJECTS

- Customer Sentiment Analysis System | Python · FastAPI · Docker · Scikit-learn · HTML**

Developed and deployed an end-to-end sentiment analysis pipeline using SVM and Logistic Regression models. Containerized the application using Docker and exposed inference APIs via FastAPI. Built a real-time prediction interface integrating backend ML inference with frontend visualization. Evaluated model performance on accuracy, inference speed, and robustness.
- Query Prioritization System (ML Pipeline) | Python · TensorFlow · NumPy · Pandas**

Designed a multi-input classification pipeline processing text and structured features (department, response time) to prioritize support queries. Curated a custom dataset, applied feature engineering, and tuned the model for high classification accuracy.
- AR-World: AI-Powered 3D Catalog | JavaScript · Gemini 1.5 Flash · WebAR · model-viewer**

Integrated a multimodal LLM (Gemini 1.5 Flash) to convert natural language into interactive 3D AR objects — demonstrating hands-on experience with multimodal VLM APIs and vision-grounded interfaces.
- Laptop Harmonium (Web Audio Project) | HTML · CSS · Web Audio API · JavaScript**

Built a browser-based virtual instrument with keyboard, mouse, and motion-based inputs, showcasing multi-modal interaction design and creative front-end skills.

CERTIFICATIONS

- Introduction to Generative AI - Google Cloud Skill Boost.
- Introduction to Large Language Models - Google Cloud Skill Boost.
- Introduction to Data Concepts - IBM SkillsBuild.

LEADERSHIP & ACTIVITIES

- Vice President - The Invincibles (Student Organization)**
Led and coordinated team activities, contributing to event planning and execution. Assisted in managing internal communication and team collaboration.
- Social Media Manager - The Invincibles**
Managed and grew presence on platforms like LinkedIn and Instagram.
- Student Coordinator – Campus Connect Committee (SCA):**
Managed social media content including posts, reels, and short videos for student engagement. Contributed to content planning and execution for initiatives and events.

EDUCATION

- Lovely Professional University**
Bachelor of Computer Application – Specialization in AI & ML | **CGPA: 9.03**
Punjab, India
August 2024 - Present
- Bhartiya Vidya Mandir School**
Intermediate; **Percentage: 87.40%**
Ludhiana, Punjab
April 2023 - March 2024
